SUMMARY

Senior WordPress Developer with 4.5+ years of experience building complete WordPress websites from scratch, including custom themes, plugins, Gutenberg blocks, ACF Pro, and WooCommerce. Strong hands-on experience with PHP, JavaScript, REST APIs, headless WordPress, multiple WordPress page builders, third-party integrations, CRM integrations such as HubSpot, Pipedrive, and Zoho, technical SEO, performance optimization, and website security. I also work with AI tools, Make, and Zapier to automate workflows, improve development processes, solve real business problems, and deliver clean, reliable, and scalable WordPress solutions.

PROFESSIONAL EXPERIENCE

Xspotindia - Senior WordPress Developer

February 2026 – Present

- Develop and maintain custom WordPress websites, themes, plugins, Gutenberg blocks, and ACF Pro implementations for multiple client projects.
- Work across 5 active client projects, handling development, maintenance, and coordinating a team of 3 developers.
- Build custom PHP functionality, REST APIs, CRM integrations, WooCommerce features, and third-party integrations.
- Work with Git/GitHub, Docker, Redis, MySQL, and cloud hosting environments as part of development and deployment workflows.

Sunflower Lab - Software Developer

Feb 2023 – Sep 2025

- Handled development and maintenance for 3–4 client websites along with the main company website, delivering new features and ongoing improvements.
- Developed custom WordPress themes, plugins, and business-specific functionality based on client and internal requirements.
- Created Make and Zapier automations for content and business workflows, including LinkedIn content automation, outreach, and CRM processes.
- Developed and customised HubSpot email marketing templates and integrated marketing workflows with business requirements.
- Worked with React and Angular alongside WordPress development when required for frontend features and integrations.

LearnKartS - WordPress Developer

Jun 2022 – Jan 2023

- Worked on WooCommerce-based learning websites, handling development, maintenance, customisations, and ongoing improvements.
- Developed new website features and customised WooCommerce, themes, plugins, and learning-related functionality based on business requirements.
- Troubleshot website issues, worked on SEO tasks, Screaming Frog audits, on-page SEO, technical SEO improvements, performance optimisation, content updates, and ongoing WordPress/WooCommerce support.

BLUeSINGA - WordPress Developer

Oct 2021 – May 2022

- Started my professional career by learning and working on WordPress development, theme customisation, plugins, HTML, CSS, and JavaScript.
 - Gained hands-on experience in website development, content updates, troubleshooting, and implementing new website features while building a strong foundation in WordPress.
-
